Explanation of Personality Types (RIASEC)

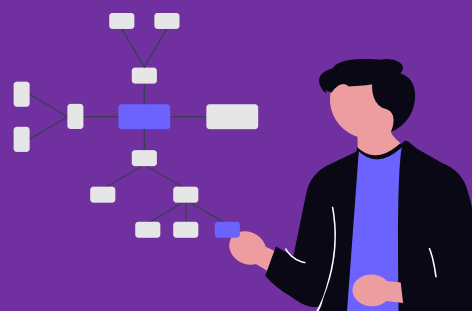

Realist (The Doer)

Realistic people are practical and like to work with their hands. They enjoy fixing, building, or creating real things. They prefer action over discussion and like being outdoors or using tools and machines. They are suited for careers in **engineering, mechanics, defence, architecture, or agriculture.**

Investigative (The Thinker)

Investigative people are curious and logical. They love to ask questions, explore ideas, and solve problems. They enjoy science experiments, research, and understanding how things work. They are best suited for careers in **science, medicine, research, or technology.**

Artistic (The Creator)

Artistic people are imaginative and expressive. They enjoy writing, drawing, music, or designing. They do not like strict rules and love freedom to express their ideas. They are creative thinkers who bring innovative ideas to life. Distinguished career options include **art, design, media, writing, film, or fashion.**

Social (The Helper)

Social people love helping others and enjoy being part of a team. They are kind, caring, and friendly. They feel happy when they support or teach someone and often choose jobs that make a difference in people's lives. Careers like **teaching, counseling, psychology, and nursing** are great choices for them.

Conventional (The Organizer)

Conventional people are neat, careful, and responsible. They like rules, structure, and working with data or plans. They do well in jobs where accuracy and order are important. They are the ones who keep things organized and running smoothly. Good careers include **accounting, banking, data entry, and office management.**

Enterprising (The Leader)

Enterprising people are confident and full of energy. They like to take charge, make plans, and lead others. They are good at talking, convincing, and organizing. These people often enjoy starting new projects or businesses. Careers in **business, management, marketing, law, or politics** fit them well.

Personality Types matching you are:

- 1. Realistic** - You have a strong practical aptitude, making you well-suited for hands-on subjects and careers like engineering, trades, or skilled craftsmanship.
- 2. Investigative** - You have natural curiosity and analytical mindset, making you excel in scientific, analytical fields. Careers involving research, problem-solving, and technical areas may be a great fit for you.

Personality Types moderately match you are:

- 1. Enterprising** - You have a balanced interest in leadership and teamwork. You might consider careers that involve a mix of independent work and collaboration.
- 2. Artistic** - You have an interest in creative fields, while also being open to other areas of study or career paths that require a mix of creative and analytical skills.

Personality Types which remotely match you are:

- 1. Social** - You have less interest in social or people-oriented careers. You might prefer fields that require more independent work or focus on technical skills.
- 2. Conventional** - You have less interest in structured or routine environments. You might prefer careers that allow more flexibility, creativity, or exploration.

Thank You!
